

jchris Valentine 2013

Give that special someone a limited edition Valentine's Day Card and envelope. Assembled with love by you. All you need is a printer, scissors, some glue and a little tenderness.

On the back of the card you could write a little poem.
Make one up or just use this one.

I don't mind the sound of your little snores,
Or all the times you don't do your chores.
Our life together is so super fine.
It's nice to know you'll always be mine.
